

Arkansas FFA

Dear Arkansas FFA Members,

Serving as a Arkansas State Officer has been a goal of mine since the 8th grade. Over the past five years my goal has stayed the same while my reason for running has grown and developed. Through the years FFA has not only been a home for me, it has shown me how to grow into a leader and find my voice. Much like FFA, dirt track racing has played a huge role in my life. As a female driver in a male-dominated sport, I've learned that success isn't just about speed... It's about determination, resilience, never backing down from a challenge, and pushing yourself to be greater each and every time you go out on the track. Racing has taught me that the road to success isn't always smooth. But, with the right team and mindset, you can navigate any turn. FFA has been my team, my pit crew, and my fuel for growth. Now, I want to be part of your team. I want to help every FFA member find their own confidence, chase their goals, and take the wheel in their future. Whether your track leads to agriculture, mechanics, science, business, or beyond, FFA provides the skills and support to get you there. As an Arkansas State Officer, I would be honored to serve, inspire, and help drive Arkansas FFA full speed ahead.

Sincerely,

Carlie Burris
